An appeal from Family Care Adoption Services:

Family Care Adoption Services is a voluntary adoption agency with offices in Derry and Belfast, which provides an adoption service throughout Northern Ireland. A core part of our work is to place children with new adoptive families. These children are often from the care system and may have had a difficult start in life. We are experienced in finding families for these children but given the number of children being referred and their specific needs we are always looking for families to come forward.

We are presently seeking to recruit adoptive families for babies and young children.
